3. The library is not an integral part of an institution of higher learning.

Allowable Costs

Allowable Costs

Most costs necessary and reasonable for the proper and efficient administration of a grant project are allowable costs that may be proposed as budget items in an LSTA grant application. The following are also allowable costs under specific topic areas:

Personnel

Salaries and Benefits & Contract Services

LSTA funds may be used to pay for contract services on a conditional basis. The contractor must be working exclusively on the LSTA grant project. Documentation must be kept on duties performed when being paid with LSTA funds. Check your specific Circular (see section on Federal Office of Management and Budget Circulars) for any restrictions.

LSTA funds may also pay for staff salaries and benefits for time spent solely on the LSTA project outside of their normally scheduled hours. This includes part time staff who work additional hours to complete the LSTA project or temporary employees hired solely to carry out the LSTA project.

Continuing Education & Training

Library staff and (where relevant) other library related individuals may need to receive training so that they can develop and deliver services directly related to the LSTA grant project. For example, a library is going to offer early literacy classes to their patrons as an LSTA project. LSTA funds may be used for the training of librarians to carry out this service.

Operating

Advertising

- Expenses involved in a project to inform the public or the media about specific LSTA grant projects
- Brochures and bookmarks, charged to an LSTA project to carry out that specific project
- To promote events being held during the project, for example story times, ESL classes, etc.
- To announce outcomes of the completed LSTA project.

Supplies, Printing, Postage

Most of these costs are allowable as long as they are used only in the commission of the LSTA grant project.

Promotional Materials

A general guiding question often used is whether a prudent person would determine that the items are directly related to the LSTA grant project, and a factor may be whether the items are more educational and informational in nature than promotional. See section on unallowable costs for more information on giveaways.

Travel Costs

Most travel costs associated with the grant project may be paid with LSTA funds. Costs will be reimbursed based on the existing travel policies, per diem and mileage rates of the State of Utah. Travel will only be reimbursed for individuals directly working on the LSTA grant project.

Capital Expenditures

Furniture

There are some situations where furniture is an allowable LSTA expense. For example, if you are using LSTA funds to purchase new computers for your patrons you may purchase computer tables to place them on and chairs to sit in while using them.

Unallowable Costs

The following costs are unallowable and may not be proposed as grant project costs:

- Administrative fees or costs (fringe benefits, payroll taxes, sales taxes)
- Advocacy or lobbying fees or costs
- Alcoholic beverages
- Bad debts
- Building construction or renovation costs
- Capital expenditures
- Collection development purchases not targeted directly to the grant goals
- Contingencies
- Contractors that are not offering services for the LSTA project
- Contributions and donations
- Entertainment / Performances – including amusement, diversion, and social activities, and any costs associated with such activities (food, entertainers, rentals, gratuities, alcohol, etc.); costs of ticket to shows or sporting events.
- Equipment or technology not specifically needed to carry out the goals of the grant
- Fines and penalties
- Food
- Furniture (built-in). Some furniture may be allowable as part of the grant project. Check with the Grants Coordinator before purchasing
- Gifts, honoraria, stipends, or awards
- Promotional items – key chains, t-shirts, pens, toys, etc.
- Incentives, rewards – including prizes for drawings, events, etc.
- Interest and other financial costs
- Do not put your federal LSTA funds into investment-type funds. If interest is earned on LSTA grant funds by the subgrantee, the amount of the interest must be refunded to the Utah State Library, and subsequently returned to IMLS
- Staff salaries and benefits – LSTA funds can pay for staff working on the grant project and only for the hours that they work on the project outside of their normally scheduled hours
- Transportation equipment
- Under recovery of costs under grant agreements (excess costs for one grant application is not chargeable to another grant application)

2019-2020 LSTA Grant Applications Step-by-Step Guide

These guidelines provide step by step instruction for each question in the LSTA application. This tool should be well-reviewed and used. If you have any questions after reading the guide, please call or email Rachel Cook at 801-715-6722 or rcook@utah.gov.

Identification

1. Applicant meets all the eligibility criteria for its type of library.

This is the acknowledgement that the applicant library meets criteria to be designated a “library” by Federal or State of Utah statutes, to be eligible for LSTA funding. Refer to Appendix A - Eligibility Criteria to determine your library’s eligibility.

2. Library Type

Check the box that best describes your library, library consortium, or library-related organization.

3. Project Title

- Should be concise and explanatory.
- Name of library does not need to be in the title of the project.

4. Name of Applicant Library

This is the full name of the library that is the primary location for implementation of the project.

5. DUNS Number

The DUNS number is a unique, nine-digit identification number for each physical location of your library. The number is provided by Dun & Bradstreet. The Fiscal Officer may have or be able to request a DUNS number for your library. Most libraries already have a DUNS number assigned. For more information or to request a DUNS number, go to: <http://fedgov.dnb.com/webform>

6-8. Project Director’s Information

The Project Director is responsible for the implementation, management, completion, evaluation, and reporting aspects of the project. This person is also the point of contact for the State Library in this grant project.

9. Library’s Mailing Address

The State Library will mail contracts and checks to this address. Please ensure you list the mailing, not the physical, address if they are different for your library.

10-13. Project Fiscal Officer’s Information

This is the person responsible for the receiving, managing, and disbursing LSTA funds such as the city or county treasurer or auditor, the school principal, or the library’s financial manager or director.

14. Did you read the LSTA grant guidelines?

Because these guidelines provide important guidance, it is important that they be read. This question lets you affirm that you have reviewed the guidelines and will be able to keep them.

15. Did you complete an LSTA grant training hosted by USL?

Trainings are another resource that help avoid errors in the application and the grant projects. We highly encourage that at least one training be attended. Recorded trainings can be found here:

<https://library.utah.gov/lsta-grant-round/>.

16. If you answered yes above, which training(s) did you complete?

Select the training(s) you attended.

Need

This section accounts for 25% of your final score.

17. Describe the community need you plan to address with this project. What challenge does your community face that this project will help? Include the specific population you plan to serve and how you determined the need of this population.

- This question is directly from the pre-application. Feel free to copy and paste the answer, updating as needed.
- Having a compelling need is one of the most important factors in a strong grant project.
- Should be a *community* need, not a library need, for the project to have real impact. Your community can be your library workforce if you seek to create a training program or focus on other staff needs in this grant.
- Clearly describe the population you have determined has a need. The population will be fairly specific like minority teens, struggling readers, small business owners, etc.
- Clearly describe how you came to know this population had a need. Are you using community statistics? Surveys of citizens? Information gathered from partner organizations? Staff member observation? (If using staff observation, make sure this is an issue you have tracked and have data for showing this is not just a “hunch.”)

Goals and Evaluation

This section accounts for 25% of your final score.

18. Please select one or more IMLS intent(s) you plan to meet with this project. *You must have a major component (activity) of your project planned to support each intent you select.

You may select more than one intent for this project. However, each intent you select must have a specific activity or major component to support that intent. Definitions of IMLS intents are below.

- INFORMATION ACCESS - Improve users’ ability to discover information or obtain information resources. Improve users’ ability to obtain and/or use information resources.
- CIVIC ENGAGEMENT - Improve users’ ability to engage in their communities or participate in community conversations around topics of concern.
- EMPLOYMENT & ECONOMIC DEVELOPMENT – Improve users’ ability to apply information that furthers the status of their jobs and/or businesses. Improve users’ ability to use and apply business resources.

- HUMAN SERVICES – Improve users’ ability to apply information that furthers their personal, family or household circumstances, including household finances, health and wellness, or parenting and family skills.
- INSTITUTIONAL CAPACITY – Add, improve or update a library function or operation in order to enhance its effectiveness. This includes enhancement and education of the library workforce as well as improving the library's physical and technological infrastructure.
- LIFELONG LEARNING – Improve users’ knowledge or abilities beyond basic access to information. This includes formal education of participants or improvement of general knowledge and skills.

19. Please select ONE State Library goal you plan to meet with this project.

You may only select one State Library goal for your LSTA project. Goal definitions are below.

- INFORMATION ACCESS All residents of Utah will have access to the quality information resources they need to succeed at school, at work, and in their daily lives.
- INSTITUTIONAL CAPACITY All residents of Utah will have convenient access to libraries and library services that are technologically advanced, efficiently operated and staffed by knowledgeable, helpful workers who employ the best professional practices.
- LIFELONG LEARNING All residents of Utah will have access to library resources that promote literacy, education, and lifelong learning and enhance workforce development, 21st century skills, and digital literacy.
- CIVIC ENGAGEMENT All residents of Utah will expand their involvement in community life as a result of participation in community-based programs held through the library.

20. Please describe the outcomes you plan to see as a result of this project that correlate to the above stated need. What changes do you anticipate seeing in your target population based on this project?

- Outcomes are defined as changes in knowledge, skills, attitudes, or behavior of the audience you are trying to serve.
- Outcomes must be directly connected to the need you listed. For example, if you are trying to improve reading comprehension in minority teens, your outcome may be “Minority teens will be able to read at least one level above their current reading comprehension score as a result of this project.”
- Outcomes do not always need to have a number attached to them. For example, your need may be that adults are not comfortable finding reliable information on an upcoming election. The outcome could be “Adults who attend library training on finding voter information will exhibit more confidence in finding accurate, unbiased information.”

21. Please describe how you will evaluate each of the above-listed outcomes to determine your success.

Include the evaluation method, when you will evaluate, and the metrics you will observe to determine a change.

- Outcomes are crucial, but meaningless if you don’t have a way to track them.
- One way to track changes in your population is to use quantitative data. In the example of minority teens, you could track their reading comprehension scores. This requires you to get an initial score and then a score after the teen goes through your new program. The differences in those results should communicate an outcome.

- Less tangible needs, such as adult confidence in finding voter information, can be tracked through surveys, interviews, focus groups, etc. Be sure to get as large an amount of surveys or interviews as possible and avoid asking leading questions.
- If your project focuses on the library workforce or instructing the public (including programs), IMLS requires certain surveys be used for gathering feedback. Please contact the grants coordinator to get a copy of the required questions.

Description of Activities

This section accounts for 25% of your final score, 5% of that 25% is awarded just for partnerships.

22. Please give a brief overview of your project. Include in your description how your project addresses the stated need and why your organization is the right organization to address the issue.

- This question is directly from the pre-application you completed. Please feel free to copy and paste the answer you gave in the pre-application making any needed changes.
- The purpose of this question is to give the LSTA coordinator and the grant reviewers a big picture understanding of your project without going through every small detail.

23. Please describe activity #1.

- Activities are the how of a project. An activity supports how the intent of the project is met. They are a key component in the project.
- You should have the same number of activities as IMLS intents that you selected. If you don't have an activity planned for meeting an intent, please deselect that intent.
- When describing the activity, use more detail than you did in question 22.
- The grants coordinator and reviewers should not have any questions on how you plan to support the intent after reading your activity description.

24. Who does activity #1 benefit?

- Select Library Workforce or Library Patrons. This should be the person who receives the training, materials, program, etc.

25. Will you have partners on activity #1? If so, please list them and how they will be involved.

- Partners in a project are highly encouraged and account for 5% of your application score.
- Partnerships must be mutually beneficial and those benefits must be explained here.
- Describe clearly how project partners will be involved.

26-37. Description of remaining activities.

- Describe all subsequent activities here.
- If you have more than 5 activities, please list them in activity #5 blanks with the number of activity they will be (ie, for a sixth activity, you would answer the same questions of the activity 5 blanks, but write #6 before each answer so it is clear which activity the answer belongs to.)

38. For your project schedule, include a list of bulleted actions that will take place each month of your project.

- This month by month breakdown is the timeline your grant will follow.

- Narrative is not important here, simple bullet points of milestones and key actions is acceptable.
- Does not need to be incredibly detailed, just enough that the grants coordinator and reviewers understand how your project will flow.

39. Upload partnership statements for all partners listed in your activities here.

- Signed partnership statements must be included for each partner listed.

Indirect Cost Rates

Please answer the following questions about using indirect cost rates for LSTA projects. If you intend to use a federal indirect cost rate but have not started the process to obtain one, please contact the grants coordinator immediately.

In accordance with new federal regulations implemented through 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, all Notice of Grant Awards must reflect a subgrantee's federal indirect cost rate.

An indirect cost is an organization's incurred cost that cannot be readily isolated or identified with just one project or activity. These types of costs are often referred to as "overhead costs." Typical examples are general telephone service, utilities, Internet, postage, office supplies, office space expenses, and administrative or financial operations for an entire organization.

Please note you are welcome to use an indirect cost rate for this grant less than your negotiated rate if approved by your organization.

40. Please indicate your decision for using indirect cost rates.

You have several options concerning indirect cost rates. You can choose to not include any indirect costs, use a previously negotiated indirect cost rate, use an indirect cost rate proposed to a federal agency but not yet approved, or use a rate not to exceed 10% of modified total direct costs (the total grant request) if you have never had a federally negotiated indirect cost rate and you are not subject to other requirements (e.g., for States and Local Governments and Indian Tribes).

41. If you selected a current, previously negotiated indirect cost rate, please enter the name of the agency that you negotiated with, the expiration date of the rate, and the negotiated rate. If you did not select this option, please enter NA.

- If you have used this rate before, you or someone in finance will have this information.

42. If you selected a submitted indirect cost rate that hasn't been negotiated yet, please include the name of the agency with which you are negotiating, the proposal date of the rate, and the proposed rate. If you did not select this option, please enter NA

- If you are in this process, you or someone in finance will have this information.

Budget

First, please review Appendix C - Allowable Costs to familiarize yourself with the approved expense categories and see examples of allowable/unallowable costs. This section accounts for 15% of your final score.

43. Total Project Costs, including local funds and in-kind donations.

- Total amount for the project including amount of LSTA funds requested, local funds, and in-kind donations.

44. Amount of Local Funds (Local funds are encouraged, but not required)

- Amount of local dollars that will be spent on the project.
- May be from the library budget or local donations.

45. Amount of In-Kind Services (In-kind services include employee time spent on the project but paid by the library, volunteer time, facility rental, etc. that are donated to support this project.)

- If you have any in-kind services offered that will help to complete the project, include the equivalent dollar amount in the budget form. In-kind services are usually donations of personnel, space, or supplies.
- Use the local prevailing wage per hour for the job, or rental space, or the price it would cost you to purchase the items locally as the dollar equivalent.
- Employee time spent on the grant project but not paid for by the grant is considered an in-kind service. Employee time used for in-kind services does not need to be outside the normally scheduled hours.

46. Amount of LSTA Funds Requested

- This amount plus local funds and in-kind services should equal the total project costs. If these numbers don't add up, please check your math.

47-52. Budget totals per area and what will be purchased.

- Please answer questions 47 through 52 as they pertain to your project based on the guidelines in the application.
- Include the total dollar amount for that area as well as what the items are, generally. This may look like \$100 – Books in the Supplies category.
- If you will not be spending money in that area, please indicate by entering “NA.”
- Equipment is only used for single items costing more than \$5000 and have a useful life of more than one year. Computers costing less than \$5000 are considered supplies/materials.

53. Local Funds: Include any local, donated, or non-LSTA dollars that will support this grant project that you intend to use as a match.

- This answer should be written in the same type of breakdown like the above category.
- Match costs can only be counted as match if they follow the same allowable cost guidelines.

54. In-kind Services: Include costs of any donated services, donated products, or staff time worked for this project that will be paid by the library. Only list these items here if you intend to include them in your match.

- This answer should include the same type of breakdown like the above category.
- In-kind costs can only be counted as match if they follow the same allowable cost guidelines.

55-60. Please describe how you are going to expend the money listed in each category of the budget form. This described budget may be in the form of a list. Be specific, but avoid too much detail. For example, “100 children’s nonfiction picture books and juvenile nonfiction books for the afterschool STEM club,” gives reviewers an understanding of the proposed expenditures without listing titles. This narrative should also include how you determined the estimated amounts in your budget.

****Do not include funds used to pay current library staff, except in the case of part-time staff who will be working additional hours or temporary employees working solely on the grant project. The personnel costs category is valid only for staff being paid through the library’s regular payroll process. Any other project staff should be listed as a consultant(s).**

61. Please describe the source of local funds listed for this project.

62. Please describe the source of the stated in-kind services for this project.

63. How will you continue to fund this project after the project period? This includes how you will replace and update items that were purchased with this project.

- Describe what plans the library has in place to ensure the project will continue after the grant period ends.

64. If you are including indirect costs in this grant request, please enter the total here. *If you do not have an already negotiated indirect cost rate with the federal government & would like to use one, please contact the Grants Coordinator immediately.

- This is the actual dollar amount of indirect costs that will be claimed, not the percentage of the rate.
- You can claim less than your negotiated indirect cost rate, if your organization approves it.

Spelling, Grammar, and Math

Spelling, grammar, and math accounts for 5% of your final score.

65. Have you reviewed your application for proper spelling, grammar, and math?

- Spelling, grammar, and accurate math are important to having a credible, professional application. This question is your chance to review and make sure things are spelled correctly and add up to the amount they should.
- Proper spelling, grammar, and math accounts for 5% of your total score.

Innovation

Innovation accounts for 5% of your final score.

66. Please describe how your LSTA grant is innovative or above-and-beyond your standard library service.

- This question can be why this service is innovative to your community, not the library world as a whole.

Assurances and Certifications

67-70. Enter the requested information acknowledging that you have reviewed and accept the federal assurances and certifications required by IMLS for this grant.

- Please refer to Appendix E – Federal Assurance Forms so you understand what you are agreeing to.

LSTA Sub-Grants Salary and Wage Reimbursement

General Guidelines

The following information applies whether the employee works solely or partially on the LSTA grant project. LSTA can only pay for employee time worked in addition to regular hours or for temporary employees, solely on the LSTA project. Requests for reimbursement for salaries, wages or benefits accrued while working on an LSTA grant project **require** two supporting documents:

1. Timesheets, and
2. Proof of compensation.

Requests for reimbursement for salaries, wages, or benefits that do not provided supporting documentation **will not** be approved.

Timesheet

You may use a timesheet from your agency, organization, or library; or you may use the example on the following page. An Excel version of the timesheet is also available.

All timesheets **must** include the following information:

1. Dates of the week and month
2. Actual hours worked per day on the LSTA project
3. Actual total hours worked per week on the LSTA project
4. Actual total hours worked for the pay period on the LSTA project
5. Printed name and signature of the employee who worked
6. Printed name and signature of the employee's supervisor
7. Supervisor must have first-hand knowledge of work performed by employee
8. There **must** be a separate timesheet completed for each employee for whom funds are being requested

Proof of Compensation and Distribution

These records demonstrate that the employee was actually compensated for work on the LSTA grant project. The Payroll Department for your agency, organization or library should be able to generate the reports that are required.

Payroll documents that are in accordance with generally accepted accounting practice of your institution and are approved by a responsible official of your institution may be used for this purpose.

Payroll Documents **must**:

1. Reflect an after-the-fact distribution of the actual activity of each employee
2. Account for the total activity for which each employee is compensated
3. Be prepared at least monthly and must coincide with one or more pay periods
4. Represent actual costs

Certification Regarding the Non-discrimination Statutes and Implementing Regulations

(Applies to Recipients Other than Individuals)

The applicant certifies that it will comply with the following nondiscrimination statutes and their implementing regulations: (a) Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000 et seq.), which prohibits discrimination on the basis of race, color, or national origin (note: as clarified by Executive Order 13166, reasonable steps must be taken to ensure that limited English proficient (LEP) persons have meaningful access to the programs (see IMLS guidance at 68 Federal Register 17679, April 10, 2003)); (b) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 701 et seq. including §794), which prohibits discrimination on the basis of disability (note: IMLS applies the regulations in 45 C.F.R part 1170 in determining compliance with § 504 as it applies to recipients of Federal assistance); (c) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§ 1681– 83, 1685–86), which prohibits discrimination on the basis of sex in education programs; and (d) the Age Discrimination in Employment Act of 1975, as amended (42 U.S.C. § 6101 et seq.), which prohibits discrimination on the basis of age. (e) the requirements of any other nondiscrimination statute(s) which may apply.

Certification Regarding Debarment and Suspension

The applicant shall comply with 2 C.F.R. Part 3185 and 2 C.F.R. Part 180, as applicable. The authorized representative, on behalf of the applicant, certifies to the best of his or her knowledge and belief that neither the applicant nor any of its principals: are presently excluded or disqualified; have been convicted within the preceding three years of any of the offenses listed in 2 C.F.R. § 180.800(a) or had a civil judgment rendered against it or them for one of those offenses within that time period; are presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses listed in 2 C.F.R. § 180.800(a); or have had one or more public transactions (Federal, State, or local) terminated within the preceding three years for cause or default.

Where the applicant is unable to certify to any of the statements in this certification, he or she shall attach an explanation to this application.

The applicant, as a primary tier participant, is required to comply with 2 C.F.R. Part 180 subpart C (Responsibilities of Participants Regarding Transactions Doing Business with Other Persons) as a condition of participation in the award. The applicant is also required to communicate the requirement to comply with 2

C.F.R. Part 180 subpart C (Responsibilities of Participants Regarding Transactions Doing Business with Other Persons) to persons at the next lower tier with whom the applicant enters into covered transactions.

As noted in the preceding paragraph, applicants who plan to use IMLS awards to fund contracts should be aware that they must comply with the communication and verification requirements set forth in the above Debarment and Suspension provisions.

In addition, the applicant agrees by submitting a proposal that, should the proposal be funded with LSTA federal funds, the grantee shall not knowingly enter into any project-related transactions (as defined under “lower tier covered transaction”) with a person who is debarred, suspended, proposed for debarment, ineligible or voluntarily excluded from participation on this covered transaction, unless authorized by the IMLS.

The applicant further agrees by submitting this proposal to include without modification the following cause in all lower tier covered transactions in all solicitations for lower tier covered transactions:

1. The prospective lower tier participant certified, by submission of the proposal, that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from participation in this transaction by any federal department or agency.
2. Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

A grantee may rely on the certification of a prospective sub-recipient that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A grantee may decide the method and frequency by which it determines the eligibility of its “principals.”

Except when specifically authorized by the IMLS, if a grantee knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to the remedies available to the federal government, the IMLS may terminate this transaction for cause or default.

Submission of this certification is a prerequisite for making or entering into the transaction imposed by 31 U.S.C. § 1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure, or as otherwise required by law. In addition, in accordance with Federal appropriations law, no IMLS funds may be used for publicity or propaganda purposes for the preparation, distribution, or use of any kit, pamphlet, booklet, publication, electronic communication, radio, television, or video presentation designed to support or defeat the enactment of legislation before the Congress or any State or local legislature or legislative body or designed to support or defeat any proposed or pending regulation, administrative action, or order issued by the executive branch of any State or local government.
